

Project Manager
Hong Kong

About identitii

US \$2 trillion is laundered through the financial system every year. At identitii, we believe this is partly because banks and corporates have not had an efficient way to securely share intelligent information that allows them to identify the origin, purpose and beneficiaries of a payment in real-time.

identitii was founded in 2014 to address this problem. Today, we contribute to a safer, faster financial system by building innovative platforms that use blockchain to create a trusted data ecosystem. We help our customers know more about the transactions they do in real-time.

Our Overlay+ platform is built using event sourcing, a private blockchain, document, graph and relational databases and is written in go. We use the best tools for the job.

What does a Project Manager have?

- Demonstrated experience managing projects within an enterprise client environment.
- Well-honed communication skills; assertive yet diplomatic, able to liaise professionally with multiple stakeholders.
- Strong experience producing meticulous and thorough documentation.
- High attention to detail
- Demonstrated experience managing complex, high-stakes projects.
- Familiarity with Agile development environments.
- Experience working within a technical environment.
- Proven ability to get the best out of the people and projects they oversee.

What does identitii provide in return?

- 15" MacBook Pro and 34" curved wide screen monitor
- A rapidly expanding team with achievable opportunities for career growth
- New collaborative office space in Wanchai
- Open plan office space with stocked kitchen and bar
- A flat, non-hierarchical structure allowing everyone to drive product innovation
- Options to work flexibly
- Option to travel

More about identitii

We like to solve complex problems together. If you are driven to perform, we think you'll fit right in. We move quickly. We get things done. We constantly innovate and improve. We believe that the best way to solve interesting problems is with interesting people from a variety of backgrounds. Everyone is welcome. Our diverse and inclusive culture enriches our creativity, innovation and problem-solving skills. Join the team, let's change things together!
